

OffshoreCrew AS – Information security, personal data security and ownership of data

OffshoreCrew AS is compliant with the EU directive, General Data Protection Regulation (GDPR), enforceable from May 2018. Key implications are that OffshoreCrew AS natively support that:

- The end user has easy access to which personal data that is collected and stored.
- The end user has easy access to what information that is used, by whom and for which purpose.
- The end user can ask for personal data to be deleted or anonymized.

Further details are given in the “OffshoreCrew AS Privacy Policy”

OffshoreCrew AS appraises Data Protection Officer(DPO) as a key part of the OffshoreCrew personal data protection and security policies.

OffshoreCrew AS will not share or in any way give access to the data unless given written permission or obligated by law.

Standardized data structures and API's are natively implemented throughout the application to easily support data portability.
